Halloween Safety Tips

For Children, Young Teens & Adults

Safety Tips for Children:

- It's **Not Safe** to go trick-or-treating by yourself. Make sure that an adult is going with you.
- When trick-or-treating, be sure to **Cross The Street Safely**. Always look both ways and only cross at corners or crosswalks. Take the hand of an adult or another child when crossing the street.
- You should **NEVER** go into a house or get into a car with a stranger. If this happens, scream as loud as you can and run away as fast as you can to some place safe.

Safety Tips for Young Teens:

- Don't let your friends **Pressure You** into doing something you don't want to do. Have fun but don't do something you don't feel is right. Be your own person.
- **Don't Wander Off Alone**. Go out with a group, and stay with your group.
- Be careful when walking near any van type cars. Try to **Stay Away** from them if you can. Most **Abductions** happen in vans.

Safety Tips for Parents:

- Serve your kids a filling meal before trick or treating and they won't be as **Tempted** to eat any candy.
- As bad as it sounds, this is just a fact of life now. Check your local state website for **Sex Offenders Addresses**. Almost every state has one, just do a search for your state sex offender site. Look up your zip code and it should have a list of registered offenders in your area that includes street addresses. Make sure that your kids **Stay Away** from these houses!
- Help your child pick out a **Safe Costume**. Make sure that it's fire proof. If they are wearing a mask, make sure that the eye holes are large enough for good peripheral vision.
- Make sure that if your child is carrying a prop, such as a knife or a pitchfork, that the tips are **Safe Enough** to not cause injury if fallen on. Make sure that costumes won't cause them to trip.
